MOVE. LEARN. THRIVE.

About the Course

WHAT YOU'LL LEARN:

Implement and Manage Labs

Learn day-to-day lab management and best practices to provide structure to the ABL Lab.

Optimize Room Layout & Set-up

Master the areas of scheduling, set-up, and room layout for maximum efficiency.

Support Child Development

Understand student assessment and how to facilitate student progressions through the lab.

Ensure Safety & Proper Use

Establish safety and lab rules while learning the proper use and operation of equipment.

Layer Academic Content

Learn the layering of academic content onto physical movements and stations.

Enhance Lab Effectiveness

Maintain ongoing care of the labs to boost the overall success of your ABL program.

Recognized Certification

Stand out as a specialized leader in managing successful ABL labs.

Lab Resources

Gain tools and resources to implement strategies immediately.

Exclusive Educator Portal

Downloadable resources, lesson ideas, and ongoing support

Who is this For?

- Lab Facilitators
- Classroom teachers
